# Round and three-legged

– Normann Copenhagen presents the Tablo table in warm grey, grey and blue

Once again, Nicholai Wiig Hansen has created a design for Norman Copenhagen which unites function and aesthetics in a simple design. The refinement of the tabletop's sharpened edge compliments the lacquered legs beautifully and gives the table a pure and minimalistic feel.

The name, Tablo, refers to the English 'table' and the French 'tableau', the latter meaning a scenic, organised arrangement. With its simple expression, Tablo fits into most interior styles and is available in a large and a small version. Tablo is quick and easy to assemble without the use of screws.

Nicholai Wiig Hansen says: *“For me, it is paramount that function, materials and aesthetics all come together. The design needs to both be useful and solve a basic need - without compromising the visual expression. Being easy to assemble is therefore part of Tablo's function.”*

Tablo comes in two sizes and works great by itself or when placed together with other Tablo tables.
