The background features a pattern of large, glossy leaves. Some are a deep teal color, while others are a vibrant reddish-orange. The leaves are arranged in a way that they appear to be part of a larger plant, with stems and veins visible. The overall aesthetic is clean and modern.

# PASSION FOR SOFAS

Ever since we began manufacturing upholstered furniture, our ambition has been to offer modern personalised furniture at an affordable price. We realized that our goals required a flexible production with an efficient organisation.

Today we are glad to be able to say we have succeeded. The Nordic region is our domestic market and we have sales offices around the world.

Each year, approximately 250,000 customer unique sofas and armchairs leaves our factory in Poland. The range accommodates a large variety of fabrics and leathers of high quality. We can also respond to requests for individual comfort levels on the seat and back cushions.

Furninova is a company in constant development. Our goal is to always provide our resellers and end-users that little extra and unexpected that makes our upholstered furniture the best place in the home.

## **OUR OWN FACTORY**

We and our suppliers fulfil the highest European standards when it comes to manufacturing materials and production methods – we think sustainably even when it comes to shipping. Our offices strive to be Eco-friendly and prioritise digital content over printed material in order to minimise paper consumption and wasteful use of water.

## **DESIGNED WITH QUALITY IN MIND**

Each Furninova sofa is handmade, we have been designing and manufacturing sofas for over 20 years in our own factory. We feel that this is the only way to guarantee the high quality and craftsmanship that we demand of ourselves and that we wish our customers to fully enjoy.

## **FLEXIBILITY TO DESIGN**

When you choose furniture from Furninova you also choose flexibility. Pick your personal favourite from our extensive range of almost 450 fabrics and leathers and embrace the flexibility to design or choose a sofa of almost any size and shape – a sofa to fully suit your personal lifestyle.

## **ENJOY THE FURNITURE**

Great design is about thinking ahead. We argue that good design is kind to the environment: by designing and manufacturing furniture that is meant to be enjoyed and stand the test of everyday use for long time ahead – we help minimize our shared Co2 foot print and avoid wasting natural resources for coming generations.
