Functions

Back adjustment: Thanks to the back depth adjustment, you have the choice. The backrest can be fixed in two positions. The basic position, in which the backrest is at the back, provides maximum seat depth. The backrest can also be adjusted a little forwards. This reduces the seat depth, which leads to a more upright sitting position.

Cross sleeper: With the cross sleeper function, your sofa grows to XXL size. To do this, pull out the roller drawer under the seat. Then pull out the widened lying surface slightly upwards and gently snap the cushion into place at the level of the seat. Your spacious lounge / relaxation area is ready.

Lying surface: 2,5-seater ap. 156 x 133 cm, 2-seater ap. 136 x 133 cm, 2-seater medium ap. 116 x 133 cm

Attention! If the sleeping function is ordered in leather, the lying surface is covered with neutral fabric! With leather sofas the lying surface is also possible in leather - available at a surcharge!

The cross-sleeper function is not possible in combination with the motorised back adjustment!

Storage: The entire seat can be opened upwards. The integrated storage box offers plenty of space for blankets or pillows. Thanks to the built-in, ventilated storage box, your seating area is always tidy.
