

Gap series

Designed by Böttcher & Kayser, Germany

Gap is a series of flowerpots, designed by the German design duo, BÖTTCHER & KAYSER. Made in durable and light ceramic with beautiful finishes that blend form and function, they are the perfect minimalist base for your lush plants. The stackable design allows you to create green landscapes in different heights and levels in your home. Gap comes in different colours, surfaces and sizes to mix and match.

Meet the designer

We're a design studio based in Berlin exploring all aspects of furniture, lighting and interior design. For us, design is an inseparable part of our lives, it's an expression of our personality and a creative reflection of the society that surrounds us. We see opportunities in everything around us, and it's the everyday experiences that inspires us the most. Our goal is to create simple yet original designs that solve a complex problem in an innovative and functional way. It's essential that techniques, materials and aesthetics come together, and we believe great design should challenge the conventional and mundane.
