

## Podium series

Designed by Sanna Völker, Sweden

---

Podium is a series of outdoor pots in an elegant design that fits just as beautifully into classic architecture or modern buildings. Made of fiber concrete that makes the flowerpot a simple, durable sanctuary for your plants. A drainage hole at the base ensures that your plants thrive, but also makes the pot optimal for outdoor use.

### Meet the designer

I usually store ideas and cherish inspirations for some time until they mature and eventually emerge in a suitable product. These influences can include a touch on a surface, a beautiful curve, a funny anecdote, social change, user need, a meaningful word or a graceful movement. I also find the human mind and behaviour fascinating, and this is often a starting point for my designs. I believe that my products combine Scandinavian values and aesthetics with urban attitudes and contemporary lifestyles.
