

Zeni series

Designed by Bolia Design Team, Denmark

A comfortable mattress is essential for a good night's sleep. Made of a soft and responsive foam that is produced without harmful chemicals, the Zeni mattress is designed to adapt to your body's contours and relieve pressure points, providing optimal comfort. The mattress is made without any mixed materials – each element designed to be recycled into its own separate waste stream. The cover is in 100% PES and fully recyclable and the zipper is made with durable metal components that can be easily separated from the PES and recycled.

Meet the designer

We believe that good design is not only about what you see but also about how it is created and the emotions it stirs. Rooted in Scandinavian design traditions, a liberal view of human nature and respect for nature and people, we always stand by our core values – also in our designs. We love functional design, natural materials, beautiful rooms, craftsmanship, durability and substance. Design that is tailored specifically for you and made to last for years.
