New Falda Vases. Designed by Ferriani Sbolgi.

LENYA YOGA SERIES

Designed by Meike Harde

Take a deep breath and enjoy a revitalizing break.

The Lenya yoga mat and accessories allow you to develop mindful habits in the comfort of your own home – made of cork, linen and a foam made from 30% recycled plastic, with a subtle play of colour and textures that will stimulate your senses.

Beautiful enough not to store away after use and finished with practical details like handles and straps for carrying.

The elegant Lenya Yoga series is perfectly complemented by our Soft Collection Kimonos and our Ribbed Basket series.

NEW SCANDINAVIAN DESIGN

Our biggest inspiration for everything we do, we find in the ever-changing nature.

The seasons, the colours, the shapes, the materials and everything in between. And like the changing seasons, we never stand still. We evolve, explore and find new ways of designing with nature's finest materials.

We believe that fresh perspectives pave the way for change, and that creativity thrives on diversity, curiosity, openness, and collaboration.

That is why our collection is created by a brilliant community of designers from around the world. From brave new talents to world renowned design studios – all with a shared passion for sustainable ideas and Scandinavian Design.

From the first sketches to the final product, every design is made to last. Crafted from the finest and most durable materials. All designed to create calm, luxurious and beautiful spaces. Tailor-made just for you. For decades of life and for generations to come.

Every year we pay tribute to new ideas and perspectives by hosting our annual Bolia Design Awards. An inspiring tradition, which not only supports and opens exciting doors for talented designers, but also helps us see things in a new light.

Over the years, several of the winning designs have made their way into our collection, with royalty of sales to each talented designer, marking the beginning of a thriving collaboration.

ZEN RUG SERIES

Designed by Studio Emily Broom

A series of handmade rugs in playfully organic shapes, with a creative and calming design language. Inspired by the Japanese zen gardens and the idea of making our homes into peaceful sanctuaries of reflection and inner calm.

Just like the gardens, the Zen series has been created to bring a grounding foundation into our homes and set the scene for peace and mindfulness.

The talented, Copenhagen-based Australian designer, Emily Broom, won the 2020 Bolia Design Awards with the design.

As a designer, meaningful solutions are her passion, and with each new project she sees the opportunity to explore the fine balance of practicality and sophistication. Her focus is on tactility, form and composition and with every design, she pays close attention to craftsmanship and longevity.

We are long-time members of the Care & Fair organisation – founded 30 years ago to ensure that the millennium-old craft lives on while working for safe labour conditions and access to education and health care for the weavers and their families.

And so, all our handwoven rugs proudly carry the Care & Fair label – representing the world's finest handmade quality.

A TRIBUTE TO NATURE

When we carefully select the materials we use to create our designs, we are inspired by the nature that surrounds us and the beautiful, ever-changing seasons.

The magnificent natural textures, the soft colours, the calming atmosphere, and the breath-taking landscapes.

Our senses grow sharper with every touch, as we reconnect with living materials like wood – oak, walnut and ash – drawing a clear reference to our Scandinavian design heritage. And naturally, all the timber we use is FSC® certified, securing sustainable forestry with fair working conditions, while also supporting the glorious biodiversity found in the forests.

We find nothing more soothing than tactile furniture fabrics such as linen, bouclé, wool and traceable leathers. Whichever fabric you fall in love with, rest assured that it is certified according to STANDARD 100 by OEKO-TEX® and completely safe for you and your family.

Choose from our selection of EU Ecolabel certified fabrics for a smaller environmental footprint: Laine, Gaja C2C, Step Melange and Bergo.

Creating a fabric is a complex process involving many steps. We are committed to transparency in our production, which is why you can find the country of origin on every fabric and leather in our collection – from where the fibre was grown, made or recycled, to where it was dyed, to where it was woven into textile.

Combining beautifully with wood, leather and fabric, we love using exquisite marbles and travertine, natural stones treasured for their unparalleled beauty, as well as porcelain, ceramics and concrete.

We appreciate the elegance of glass in its various forms, together with timeless stainless steel and radiant sparks of brass.

We love using natural accents like the iconic, Scandinavian paper cord and the classic French wicker along with jute and seagrass. Materials that are all beautiful, durable and biodegradable.

Finally, all down and feathers that give you the invitingly plush comfort and durability in your sofa and cushions, are responsibly sourced. The durable materials and solid craftsmanship combined, are what enable us to offer you a 10-year warranty on every design.

SWING CHAIR SERIES

Designed by Henrik Sørig Thomsen

The Swing chair is designed by the talented Danish designer Henrik Sørig Thomsen, with the ambition of creating a classic dining chair with the smallest possible climate footprint. Designed and built to last – in solid, oiled oak, crafted and refined by hand using traditional woodworking techniques, and tested to meet the highest quality standards.

The series is FSC® certified and as something very special, the version with oak veneer seat is EU Ecolabel certified – the official European certificate for products that have outstanding durability and a smaller climate footprint, putting it among the most environmentally friendly chairs you can buy.

The upholstered chairs come with a replaceable seat pad for an even longer lifetime and can be upholstered in our traceable LEATHER STANDARD by OEKO-TEX® leathers or fabrics in a variety of elegant colours to fit any space.

Adding a contemporary twist to the story, Swing is now launched in a colourful version too. A limited edition series with the same hand-made quality but in three monochrome colours and upholstered in luxurious STANDARD 100 by OEKOTEX® certified bouclé.

EU Ecolabel : DK/049/025

GRACEFUL TABLE & BENCH SERIES

Designed by Michael H. Nielsen

The Graceful series is made to last in nature's best and most durable materials. A beautiful series of tables with matching benches, coffee tables and desks, designed by the Danish designer Michael H. Nielsen.

Characterised by sleek lines, poetic angles and solid, FSC® certified wood that invites you to feel, touch and experience with all your senses.

With his inquisitive nature and creative approach to design, materials and sustainability, Michael H. Nielsen created the Graceful series based on a 'less is more' principle. Details are kept to a bare minimum and all designs in the series are united by the beautiful, vast surface that is an empty canvas for artistic tablescapes and bright ideas. And now Graceful is available in a larger than life version too – meant as a meeting table or perhaps a dining table for the big dreamers.

A timeless and elegant interpretation of our Scandinavian design heritage that tells a story of great craftsmanship and most importantly – longevity.

BOLIA SOFA SESSIONS

Immerse yourself in our musical universe.

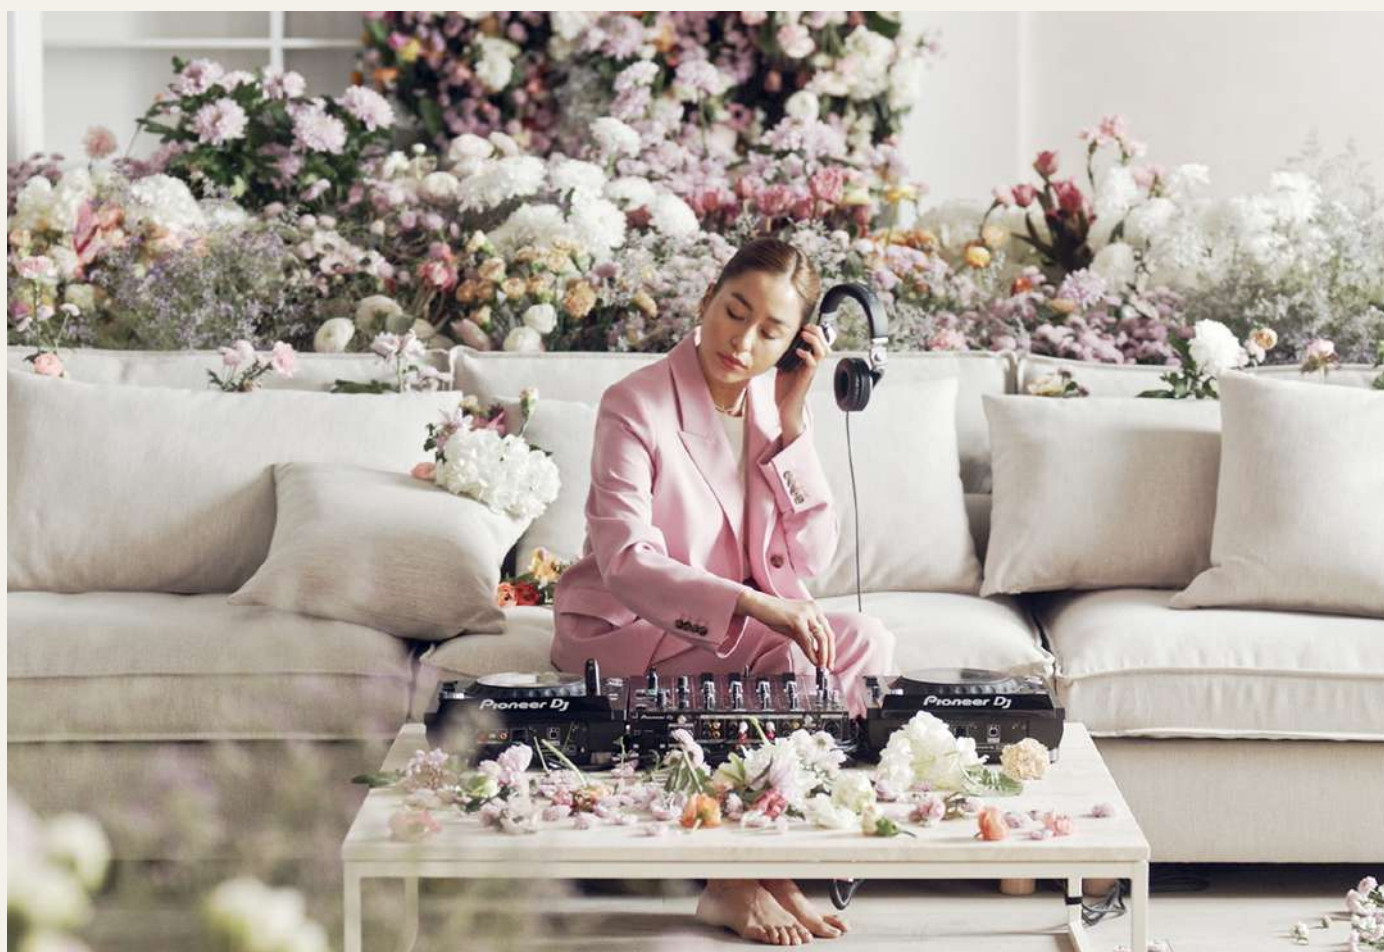

Music is an essential part of our lives. It has the power to move us, to make us dance, and to soothe our souls.

As music lovers and creators, we're always on the lookout for new and exciting ways to express ourselves and liberate our creativity.

That is why we are inviting renowned DJ's to take us on their musical journey in our exclusive Bolia Sofa Sessions and share every mixtape and every beat with you on Bolia.com, Spotify and SoundCloud.

And for this season we have also joined forces with Pioneer DJ, the world's leading brand for professional DJ equipment, to create an exclusive furniture collection that blurs the lines between the vibrant club scene and the soothing ambiance of home.

BOWIE ARMCHAIR

Designed by Skrivo

Influenced by mid-century Scandinavian design and designed by Italian studio, Skrivo. A sophisticated armchair characterised by a luxurious, solid oak frame that seamlessly widens from leg into armrest, gently embracing the seat. Handcrafted with a combination of traditional and modern woodworking techniques which lend a contemporary aesthetic to the design.

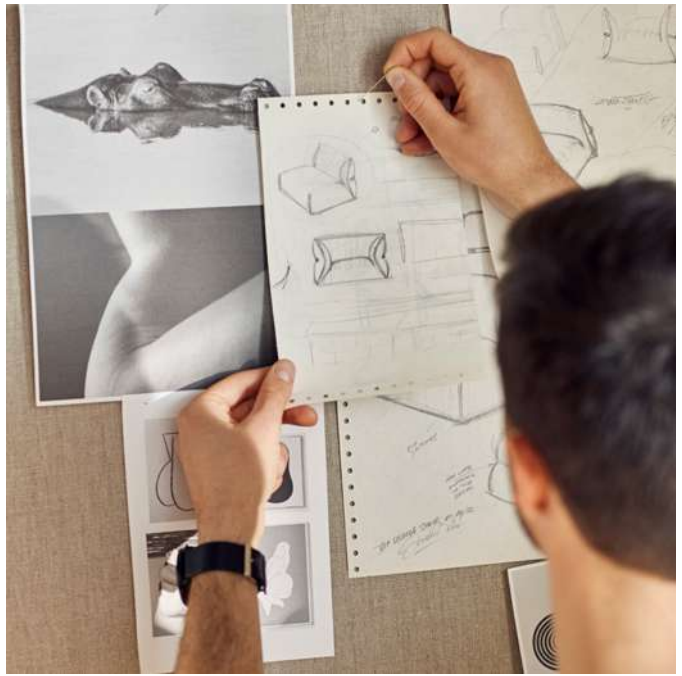

The plush seat and backrest are upholstered in your choice of STANDARD 100 by OEKO-TEX® fabrics or LEATHER STANDARD by OEKO-TEX® certified leathers from our collection.

Skrivo was founded by the Croatian-Irish industrial designer Stefan Krivokapic. His multicultural background has always guided him to take bits and pieces of different cultures, history, values and materials to create interesting and innovative designs.

At the heart of every project, is the idea of starting from a material or crafting technique in order to arrive at stimulating and timeless solutions. Always conscious of the available manufacturing methods and innovative material research to create products that balance function and aesthetics – exactly like Bowie does.

THE HANDS THAT SHAPE OUR IDEAS

What are great design ideas without talented hands to bring them to life?

Our craftsmen and -women are among the most skilled in the world, sharing our passion for luxurious quality and impeccable craftsmanship. Together, they build and perfect your designs using only the finest and most durable materials – crafting a more beautiful future with every piece of FSC® certified wood.

We don't have big warehouses filled with dusty, generic models – your sofa is made to order, just for you, exactly how you want it – in your chosen size, material and fabric. Made by hand with components that can be replaced if needed. And of course, with a 10-year warranty. Read more on Bolia.com.

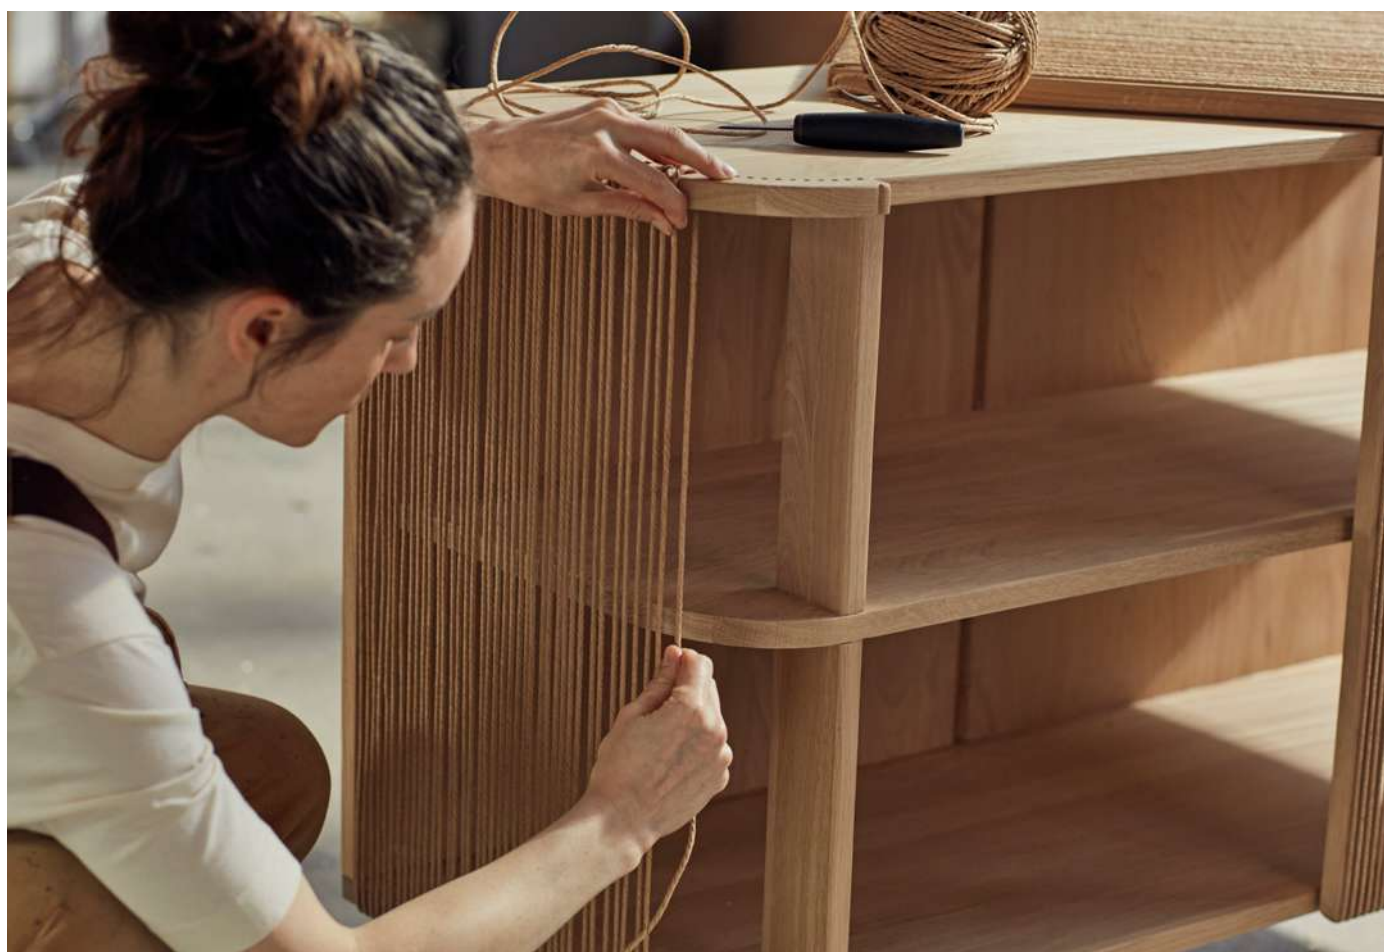

Rooted in the Scandinavian design traditions and way of life that encapsulate functional design, natural materials, beauty, craft, longevity, simplicity, positivity, openness and respectfulness.

And whilst our team of creative designers live and work all around the globe, 90% of our designs are produced in Europe. By crafting your furniture closer to where you live, we are able to minimize the negative climate effects of transportation – and give you the freedom to customise your designs endlessly.

The craftsmen and -women building your sofa and furniture are based in gorgeous places like Italy, Poland, Spain and Estonia, as well as Denmark, our tiny home country – and we offer you full transparency all the way from the production floor to your living room.

On Bolia.com you can get to know the manufacturers behind all our designs – we are very proud to share their inspiring stories and ambitious steps towards a lower climate footprint, from exclusively using sustainable wood to using leftover bark chips to power production.

Because after all, our craftsmen and -women are the true stars of our business, making your carefully crafted design dreams come to life.

All the wood we use is FSC® certified – sourced from sustainably managed forestry that preserve forest ecosystems and respect the rights of workers and local communities.

ELTON SERIES

Designed by Glismand & Rüdiger

A powerfully timeless silhouette, echoing the legacy and careful craftsmanship of the Scandinavian design tradition. The Elton series comprises of elegant sofas, armchairs, poufs, daybeds, bed-frames and coffee tables, all characterised by the slim, handcrafted frame in FSC® certified solid oak wood that gracefully elevates the design.

With its clean silhouette and soft cushions, the Elton sofa rises above the ground, allowing every tailored component and crafted detail to be visibly exposed in its honest form.

The series of coffee tables are characterised by the tabletop in beautiful, veneered oak and come in a variety of sizes and heights for every need.

As your Elton ages over time, every single component and cushion in the design can be replaced, if needed. Truly a long-lasting companion, both by build and by timeless aesthetic.

For the designers, Scandinavian design is not a branding label, but a commitment. Something to be interpreted in contemporary ways, and something to be proudly honoured. They are passionate about creating design with sustainability and longevity as the starting point – resulting in beautiful pieces that are built to last for generations.

REFLECTION LAMP SERIES

Designed by Asger Risborg Jakobsen

Born with the idea and aspiration to create something simple, elegant and timeless that embraces and highlights the basic features of a lamp – namely the light source and the shade – Reflection came to life.

The talented Danish designer behind, Asger Risborg Jakobsen, decided to bring forth and separate the two basic components from one another, giving a beautiful reflection and interplay between the shade and the soft light source. A beautiful design with both a timeless quality and vibrantly modern feel.

Friedman Storage Series. Designed by Adam Friedman.

Falda Candleholder. Designed by Ferriani Sbolgi.

ACORN LAMP SERIES

Designed by 365° North

The Acorn lamps share an appealing, organic silhouette – inspired by the characteristic shape of an acorn. Crafted from FSC® certified, solid oak and with shades made of white opal glass or semi-transparent fabric.

The cord is cleverly incorporated into the design, resulting in a sleek and seamless look, and the elegant contrasts of materials give the lamps an equally striking appearance whether they are turned on or off.

The floor lamp adds just the right amount of drama to your space, with a long suspension arm in beige lacquered metal and foot in elegant travertine stone. The lampshade in white fabric gently diffuses light, and brings a touch of warmth to the design. Truly a striking design element for the discerning stylist.

KITE CHAIR SERIES

Designed by Studio Nooi

The Italian designers Studio Nooi, have created the Kite chair. A stackable design, which is hard to achieve when designing chairs in wood, with an at the same time dynamic and stoic identity – inspired by the natural force of the Nordic winds.

The sides of the curved backrest, made of steam bent, FSC® certified solid oak, function as armrests that ensure a great seating comfort, and the chair is crafted by hand in Italy, in a durable quality that only becomes more beautiful year after year.

Studio Nooi was founded by Giulia Pesce and Ruggero Bastita in Torino, Italy, building their approach to design while studying and working as designers in Italy and Denmark.

Nooi derives from the Italian word “noi”, meaning “us” – the idea that design is never an individual act but rather a collaborative process, involving designers, companies, users, artisans and technicians.

An idea we certainly agree with.

FLOR SERIES

Designed by Martin Lauritsen

The Flor series comprises of daybeds, benches and barstools, designed by Danish Martin Lauritsen and inspired by both Scandinavian and Japanese design heritage.

Crafted with the highest precision in every detail through sophisticated woodwork in FSC® certified oak and upholstered in STANDARD 100 by OEKO-TEX® certified fabric or traceable leathers.

The slightly angled legs provide a strong and stable base which, combined with the luxuriously comfortable seat cushion, makes Flor a perfect choice for both homes and professional settings.

CANA STORAGE SERIES

Designed by Steffensen & Würtz

All designs in the Cana series feature the beautifully airy front, handmade in French wicker, which lends the series its iconic and natural aesthetic. Comprising dressers, cabinets, highboards, bedside tables and sideboards, all designed by the Danish design duo Steffensen & Würtz.

The designers have found inspiration in the laid-back charm and tranquil atmosphere of traditional Danish seaside hotels, where the sweeping, coastal landscapes and simple, authentic spaces set the tone for mindful relaxation.

The transparent expression reinforces this source of inspiration and serves a beautiful reminder to keep the room tidy, both in function and appearance.

Bolia x KOTO

Creating silent retreats and mindful spaces
in the heart of nature.

Our creative friends at Koto Design and Living are known for their bespoke house designs – a series of sculptural, modular, minimalist homes, architecturally designed with nature as the biggest source of inspiration. Koto's eco homes are built off-site, using locally sourced and sustainable materials. Echoing our proud Scandinavian design heritage, the Koto House interior, designed by Koto Living beautifully represents our shared passion for nature, sustainability, and longevity.

With a focus on natural materials and texture, creating a connection between the house and the vivid nature outside, the collaboration is built upon the genuine interest in how design coexists in harmony with the natural elements inside and out.

The idea has been to embrace the scenery and moving seascape. Dramatic, large-frame windows allow for a continuous dialogue with the outdoors. Cosy nooks, creating small sanctuaries, shielded from the ever-shifting, wild weather.

Reconnecting the inhabitants to the natural rhythms of nature and the passage of time in their daily lives.

The interior spaces of Koto Houses are made to suit the exterior form. Thought and design revolve around a deep interest in how the house will be used. Muted, earthy tones, natural pigments on the walls, timber floors and natural fabrics provide tactile textures.

In a modest and humble manor, an individually crafted home, made from natural materials, will welcome you inside your very own peaceful standstill.

Bolia x LA CABRA

A shared passion for organic materials, craftsmanship and world-class coffee.

We love working with other passionate souls, who care just as much about their craft as we do – exactly like our friends from La Cabra Coffee. We believe that extraordinary things occur in the intersection of innovation and tradition. And this approach is echoed when we work with others to create designs and experiences that are not limited to furniture, but include all the senses.

That's the idea behind our creative collaboration with La Cabra Coffee. When you visit our design universe, we serve freshly brewed gourmet coffee – a delicious, organic blend, carefully created just for us.

The collaboration is brought to life by our shared focus on honest materials and respect for great craftsmanship. Perhaps mixed with a spoonful of nerdiness.

Because La Cabra is meticulous when they choose their raw materials and create their rich and vibrant taste profiles. And so are we. Whether it concerns traditional wood joinery or passionate coffee brewing.

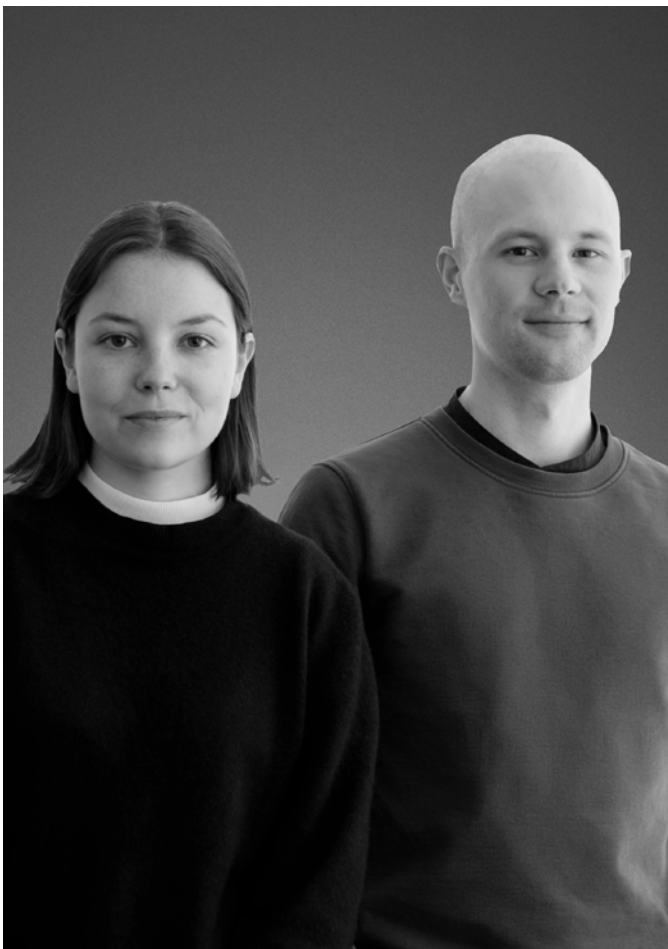

RHEOLOG TABLEWARE SERIES

Designed by jüngerkuhn

Rheolog is a collection of fine glassware and accessories for the kitchen, dining room and bar, made of mouthblown crystal glass and highly polished stainless steel in rounded, organic shapes. A classic, yet modern design series with an elegant expression and durable quality, comprising both designs for everyday life and for joyful occasions.

The collection includes fine crystal glasses and carafes, French press and coffee and tea accessories, oil and vinegar bottles, spice mills and designs for creating and serving festive drinks and bubbles. All designed by jüngerkuhn.

Many of our sofas feature removable covers that can be replaced if needed, offering both creative flexibility and a longer lifetime.

Cosima Modular Sofa, shown in Monza bouclé, Beige. Designed by kaschkasch.

Every single design in our collection comes with a 10-year warranty. Read more at [Bolia.com](https://bolia.com).

Bolia x *Pioneer Dj*

Bringing the vibrant club scene
into the soothing ambience of home.

We have joined forces with Pioneer DJ, the world's leading brand for professional DJ equipment, to create an exclusive furniture collection that blurs the lines between the vibrant club scene and the soothing ambience of home.

The result of our collaboration is the new exclusive Cord DJ Series which is designed to perfectly fit and showcase the Pioneer DJ equipment in a sophisticated, natural, and elegant way in private homes and exclusive clubs.

As Pioneer DJ originates in Japan, and Bolia is rooted in Denmark, it has been a natural choice to combine and express the distinct design elements that these two cultures have in common: simplicity, crafted details, organic shapes, natural materials, tranquillity, and muted colours.

A beautiful example is the FSC® certified braided paper cord that is handcrafted in Denmark with a clear reference to both Japanese and Danish design traditions.

The Cord DJ Series is designed by the Berlin-based design duo, Hertel & Klarhoefer. Hand-made by European craftsmen and -women and crafted from natural and certified materials, such as FSC® certified solid oak and paper braid.

The three stunning Cord DJ models are exclusively designed for Pioneer DJ, and come in both natural or black stained editions.

The Cord DJ 1-unit is designed for the new Pioneer DJ Opus Quad standalone system. The Cord DJ 2-deck is designed for 2 x Pioneer DJ CDJ-3000 and one DJM-A9, but also fits older models. The Cord DJ 2-deck also fits 2 x Pioneer PLX-1000 turntables and 1 DJM-S7 mixer. The Cord DJ 4-deck is designed for 4 x Pioneer DJ CDJ-3000 and 1 DJM-A9, but also fits older models. All Cord DJ models are designed to fit both the VM-50 and the VM-70 active studio monitors inside the cabinets

The shelves are perfectly fitted for the Pioneer DJ active speakers and the paper cord front provides a natural cover that gives an airy and organic expression and allows music to flow freely and flawlessly and fill the space.

The Cord DJ Series has a variety of clever features and beautifully crafted details. Cable management hides all cables inside and on the backside, enabling the cabinet to be both placed against the wall and free-standing, providing clean and tidy shelves inside the cabinet.

A CHANGE TO SOMETHING BETTER

We believe that a more sustainable way forward is all about making positive choices, and our ambition is to inspire others to do the same by sharing our passion, creativity and ideas as transparently as we can.

Actions are essential for change, and we are continuously raising the bar for what we want to achieve. Working with the long haul and the difficult improvements that really matter for lowering our carbon footprint.

What we believe matters the most is extending product longevity, by making beautifully timeless designs from carefully selected and certified materials, crafted to last for generations. That is why we are happy to give a 10-year warranty on every single design in our collection. See terms and conditions on Bolia.com.

In the creation of our new collection, our designers focus on extending the longevity of each product while minimizing its footprint, by finding ways to use less materials and energy for manufacturing. We ask ourselves how we can reduce waste and optimize packaging. How the design can be repaired and recycled. How we can rethink parts and components to be replaceable.

For instance, we are introducing changeable covers for many of our indoor and outdoor sofas – allowing you to renew and refresh your designer sofa over and over again.

With ambitions to create and shape a more sustainable industry, we join forces with leading partners such as Bureau Veritas, FSC® Denmark and MÅLBAR.

Testing our designs to the highest quality standards, processing knowledge and developing measurements about the climate emissions of our entire value chain, allowing us to find tangible ways to effectively reduce our overall impact.

And we are happy to share all our facts, findings and finest ideas. At Bolia.com you will find everything, all the way from our overall ambitions to the specific product climate footprint on our most popular designs, including everything from raw materials, to production, packaging and shipping, the product lifetime and eventual disposal.

We exclusively use certified wood and fabrics and all our rugs are Care & Fair labelled.

New Latch Dining Table. Designed by Dazingfeelsgood • *Kite Dining Chair*, shown in Memory, Grey white. Designed by Studio Nooi • *Acorn Pendant.* Designed by 365° North.

LATCH TABLE SERIES

Designed by Dazingfeelsgood

The Latch coffee and dining table series is designed by the Singapore based design studio Dazingfeelsgood, and was the winner of our 2017 Bolia Design Award. Since then, the Latch series has remained a beloved piece in our collection.

The tables explore the simple beauty of solid oak wood, featuring organic shapes and an eye-catching design. A heavy tabletop in FSC® certified oak and chunky legs in playfully varying diameters – with their asymmetric placement allowing ample room for up to 6 chairs.

Our furniture designs are handmade by some of Europe's most skilled craftsmen and -women and many are thoroughly tested to meet global standards for safety, strength and durability.

COSIMA MODULAR SOFA

Designed by kaschkasch

Soft, embracing and spacious enough for dreams of all shapes and sizes to grow and flourish.

The Cosima modular sofa is characterised by its generous seat depth and low arm- and backrests, which invite you to slow down, sit back and breathe, while comfortably knowing that your sofa is thoughtfully crafted in Europe from durable materials – and made to last.

Designed by the Cologne-based design studio, kaschkasch, the Cosima sofa combines functional German design with Scandinavian sensibility and minimalism. The duo strives to create beautifully intuitive, uncomplicated designs – simple shapes and clean lines, that possess a poetic expression.

On the inside, Cosima is built by hand in FSC® certified wood and filled with responsibly sourced down and feather, sewn into channels to secure the iconic shape and extend the durability.

On the outside, the look and feel is up to you. Designed by you, for you, as you combine and arrange your modules and decide upon the STANDARD 100 by OEKO-TEX® certified fabric or traceable leather that best suits your lifestyle and aesthetic.

And Cosima modules can be added, rearranged and reconfigured endlessly over time, as life presents you with new chapters and possibilities.

CORD STORAGE SERIES

Designed by Hertel & Klarhoefer

Cord creates a natural and clean atmosphere in your home by gently hiding away clutter – however, the design itself is certainly something to be seen. A series of sideboards and highboards, made of beautiful, FSC® certified solid oak that creates a substantial expression, contrasted by the delicate strings of braided paper cord that create an airy, eye-catching front, softly allowing you to peek inside.

And the paper cord is indeed something very special. The FSC® certified cord is developed and traditionally produced in a small Danish town, with local references reinforcing the design's chronicle of long-lasting craftsmanship.

This year, we have joined forces with Pioneer DJ, the world's leading brand for professional DJ equipment to create something special with the Cord series. An exclusive collection that blurs the lines between the vibrant club scene and the soothing ambiance of home. The result is the new Cord DJ extension, which is designed to perfectly fit and showcase the Pioneer DJ gear equipment in a sophisticated, natural, and elegant way in private homes. Let the music flow.

TRACK DINING TABLE SERIES

Designed by Studio Nooi

The Track dining table is designed by Italian Studio Nooi. Crafted in luxurious FSC® certified solid oak with a light and understated look.

The extension leaves are designed to be a beautiful and dramatic addition to the design – the arcs gracefully linking the two planks when in use. The design is also available in an outdoor version, with a table top in either FSC® certified teak or concrete. A dining table with refined proportions and details, built to last with exceptional durability.

PROFESSIONAL SPACES

We live and breathe for beautiful and mindful surroundings, and we work tirelessly towards making our designs available to more and more design enthusiasts around the world. People that share the same passion for extraordinary Scandinavian design as we do.

Our collection aimed at the professional market offers durable, quality designs – with all the relevant tests, certifications and functionalities and a 10-year warranty*. While exuding the beautiful and simple aesthetic that Scandinavian design culture is known and loved for.

We collaborate with brands and companies all over the world and we love to browse through the variety of spaces creatively decorated with our designs – from hotel lobbies, to creative workspaces, to restaurants and showrooms.

And we are always blown away and inspired seeing people shape their homes and lives around our furniture designs, in ways that unfold the beautiful meetings of our cultures and styles.

The stunning Villa Sunrise is no exception. An incredibly beautiful home in the exclusive Sierra Blanca community above Marbella's Golden Mile. Designed by Puroform and styled with a carefully curated selection of designs from our collection.

BOLIA PROFESSIONAL COLLECTION

Designed for new ways of working, new ways of decorating and new ways of being together, our professional collection is the ideal choice for creating an inspiring workspace, showroom, designer restaurant, boutique hotel, outdoor lounge area – and everything in between.

SEED CHAIR & TABLE SERIES

Designed by Hans Thyge & Co

The Seed series embodies simplicity and timeless appeal with its sleek, minimalist aesthetic. Chairs tailor-made to fit your needs and beautifully adaptable for any setting, from home offices and dining rooms to professional spaces – tested to meet the highest quality standards. The poetic shape is designed to provide exceptional support, allowing you to stay comfortably seated for hours.

Design your seating arrangement with chairs with or without armrests, legs of different types in steel or FSC® certified oak, and with or without upholstery of your choice from our collection of STANDARD 100 by OEKO-TEX® certified fabrics or leather. The possibilities are endless.

The elegant seat of the unupholstered version is made with 85% recycled plastic. During the moulding process, where waste plastic is converted into shape, it creates a subtle interplay of colours, which makes each individual shell completely unique.

The Seed family includes a version for outdoor use too, made of UV-stabilized polypropylene that's perfect for outdoor life. Choose the colour that is best suited for your space and enjoy long summer days and evenings under the open sky.

WELCOME TO A WORLD OF DESIGN

Welcome to our stores.

Welcome to our stores and a world of design. A world inspired by the vivid Scandinavian nature inviting you to slow down and experience our beautiful designs – all crafted, tailored and perfected by hand.

Every Bolia space is a calming little sanctuary for you to feel at home in. So just come on in and close the door to the fast-paced world behind you.

Nature serves as our main source of inspiration, and we continuously create small breathing spaces and green sceneries that foster creativity, calmness and serenity. Always freshly decorated and renewed in the beautiful homes that we call stores.

We invite you to explore, discover and experience for yourself in your own pace, in your own city – every one of our design stores has its own compelling story to tell as each one is decorated with a reference to the local community, history and architecture.

And wherever you find us around the world, we will be there to welcome you with open arms.

Stroll around and let us awaken all your senses – try, touch and taste. From our exquisite room fragrance, to our freshly brewed organic La Cabra coffee to the soothing rhythms of our music mixes. All in a calm and aesthetic environment, where you are welcome to linger just as long as you want.

And when inspiration wins you over, you can surround yourself in creativity while exploring The Design Atelier. A universe of materials and design, experimenting and creating with beautiful colours, fabrics, leathers, marble, wood and tactile material samples.

Carefully guided and inspired by our staff and our curated mood boards. A place and a space designed for conversation and fun, for inspiration and beauty.

THINGS YOU MIGHT NOT KNOW ABOUT US...

The mark of
responsible forestry

We only use FSC® certified wood in the production of our designs and all paper packaging, which ensures sustainable forestry.

A selection of our upholstery fabrics is certified with the official EU Ecolabel, meaning that they have a lower environmental impact. Gaja C2C, Step Melange, Bergo and Laine are EU Ecolabel certified.

All our rugs are handwoven and Care & Fair labelled, supporting good working- and living conditions for the weavers.

All our fabrics are carefully curated and certified according to STANDARD 100 by OEKO-TEX®. Our upholstery leathers are all LEATHER STANDARD by OEKO-TEX® certified and completely traceable.

This book is certified

1. Our collection is created by 68 designers from 19 countries.
2. All our furniture designs are individually customized and tailor-made just for you.
3. We are more than 800 creative people in our company with an equal share of women and men in our top management positions.
4. The slow-brew coffee we serve in our stores is developed exclusively for Bolia by the world-renowned coffee roasters from La Cabra Coffee.
5. Twice a year we launch a new collection – and every new design is 18 months in the making, from the first sketches to the final product.
6. Every furniture in our collection is handmade by craftsmen and -women, and our furniture designs are produced within the EU.
7. On an average week, we serve more than 10.000 cups of our slow brewed specialty coffee.
8. All the beautiful marble and travertine used in our designs are of the finest Italian quality.
9. Every piece in our collection comes with a 10-year warranty. Read more on Bolia.com.
10. We only use FSC® certified wood in all our designs and paper packaging.

11. A selection of our upholstery fabrics is certified with the official EU Ecolabel, meaning that they have a lower environmental impact.
12. At our annual Bolia Design Awards, we honor and celebrate bright new talents and welcome selected designs into our collection with royalty of sales to the designer.
13. You can stream our favorite playlists and exclusive mixtapes on Spotify and SoundCloud.
14. Each year we launch four seasonal Sofa Sessions hosted by talented DJ's and established artists.
15. Our International HQ is located in the heart of the charming city of Aarhus in Denmark – you are always welcome to stop by for a cup of slow brew coffee if you are in the neighborhood.
16. We collaborate with our innovative friends at MÅLBAR who help us measure the CO₂e emissions of our products throughout their lifecycle – as an example the *Journal in your hands has the CO₂e emission equal to that of 0.91 average cheeseburger. You can find the data behind these results and read about MÅLBAR, CO₂e and much more on Bolia.com.
17. We have an exciting partnership with Steelcase, the world's largest office furniture manufacturer, with a shared mission to turn grey offices into green ones and making a workspace revolution around the world.
18. We are proud to be part of amfori BSCI and follow the BSCI code of conduct, ensuring the social rights and safety of all our wonderful colleagues and partners around the world.
19. We open new Bolia stores all year around and no two stores are alike –all honoring the history of the building and the local community.
20. We have more than 80 design stores spread across Europe and web shop deliveries to all European countries. On top of this, we collaborate with 600 trusted dealers located in more than 50 beautiful countries around the world.
21. If you would like a sneak peek into the future, we invite you to enjoy our thrilling podcast series "The 20 next years" featuring fascinating international thinkers and thought-provoking topics about what next twenty years might bring. Find it at Bolia.com, Spotify, or iTunes.
22. The Journal you are holding in your hands is printed on FSC® certified paper sourced from sustainably managed forestry.

CREATING INSPIRING SPACES

We love sharing our passion for New Scandinavian Design, creative spaces and mindful choices. That is why we have created eight different moods inspired by nature's changing seasons and based on the materials, colours, designs and natural expressions we love so much. You can explore the mood boards on Bolia.com or visit us in your nearest store and let our consultants guide you through the beautiful expressions and creative possibilities.

LUXURIOUS RETREAT

CRAFTED SIMPLICITY

GREEN OFFICE & MEETING ROOM

HOTEL & LOBBY

RESTAURANT & CAFÉ

WORKSPACE & HOME OFFICE

NATURAL TRANQUILLITY

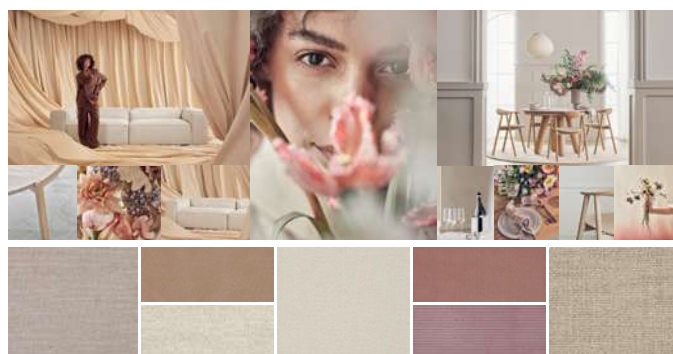

CALMING LIGHT

SEEKING SILENCE
