AT THE FOREFRONT OF LACQUERED FURNITURE

Tenzo is a Swedish well-established furniture producer. In 1934, we started as a local wooden furniture maker. Today we deliver worldwide, and we still have our production where it all started, in the woodlands of Smålandsstenar in southern Sweden.

At Tenzo, we design and produce modern, colourful furniture with a genuine Scandinavian touch. Our areas of expertise are colours and lacquered furniture.

Furniture that excites your living. Made in Sweden.

WE KNOW COLOURS AND TRENDS

Colours and the latest trends are always an important part of our product development. We research and analyse trends to make eye-catching furniture for the contemporary home. Not only do we love colour, but we're also really good at it. Ask anyone in Europe about who does lacquered furniture best and we can almost guarantee they will pick Tenzo among the top producers.

We have long-standing collaborations with several well-known designers as well as an own product development and design unit. Some of our design partnerships have resulted in award winning ranges and bestselling products.

FROM IDEA TO FINISHED PRODUCT

At Tenzo we have all knowledge about manufacturing, selling and distributing furniture. We do all steps when it comes to developing a new piece of furniture. We design, make blueprints, renderings and prototypes. We manufacture, make quality controls and we produce product information and images.

Our production facilities are in Smålandsstenar and here we produce most of our furniture. Our lacquering and packing lines are made to be flexible with short lead times. We can change the colour in our production process in five minutes and we have ability to produce large as well as smaller batches. We lacquer about 6 000 m² and pack 2 500 boxes per week, resulting in about 1 500 produced pieces of furniture every week.

We always have furniture in stock, ready to be shipped from our 10 000 m² big warehouse. Most of our standard ranges have short lead times. All products are packed in e-commerce approved cartons, ready to be shipped directly to consumers.

BESS

SCANDINAVIAN RETRO

Bess is a collection of modern Scandinavian design intertwined with the classic appearance of the 50's. It is a collection of design simplicity, where the details are made with a "less is more" mind-set. The legs are fixed in a steady solid oak frame that keeps the furniture from slouching even if you put weight on it. The solid oak is recurring in the handles which is a small element that defines the typical appearance of Bess.

Bess is the perfect furniture collection for the home that wants to add something with a genuine style and character, but don't want the looks of one piece to take over the room. Add something out of the ordinary, exciting simplicity in its purest form.

BESS

o o o o

Simplicity

The simple lines of character are what define the Bess collection. The legs are elegant and they are a perfect example of design from northern Europe. Bess proves that furniture doesn't need to be complicated to be beautiful.

Made in Sweden

Our production facilities are located in Smålandsstenar in the south of Sweden. We have high quality standards and the quality of the furniture is always inspected before the furniture is shipped.

Attention to details

The details of Bess are small and clean but is something out of the ordinary. Balance is created when the oak from the leg is recurring in the handles. The handles are also what sets the tone of Scandinavian design.

Design by: Rutger Andersson & Jurij Rahimkulov

Rutger Andersson is an excellent designer of "less is more" and he doesn't embellish his creations with unnecessary decorations. Jurij Rahimkulov has a past as an interior designer in Moscow. The combination of aesthetic and architecture makes them a great designer duo.

A SPARKLING COLOUR MIX

Harry is both fresh and elegant. The furniture design creates contrasts – soft rounded corners with black metal framed legs give the pouffes and sofas the best of two design styles.

Harry makes an impression as a single piece of furniture but can also be an eye catcher if you mix them together. Harry is the obvious choice when making an addition to any room that needs an elegant seating place.

Harry is covered in durable fabric in a range of colours. The pouffe can be used as a footstool or as an extra seat.

COCKTAIL

PLAYFUL WITH A TOUCH OF RETRO

As a tribute to the graphic and colourful 1960s and '70s, this range combines rounded shapes with high and low contrast shades. The encounter between the matt lacquered base and knobs and the semi-matt body is a success. You instantly get a modern retro feeling. Any piece from this range will be a young and poppy eye-catching piece of furniture in the room.

This furniture is designed to make you happy with a pretty design and poppy colours. And to store things. With fully extendable drawers there is room for most things you need to keep, and yet let you have a fun room. Even when you open it you get a little bit extra happy, the drawer sides are lacquered in the same colour as the rest of the furniture.

Great flexibility

The simple construction of Dakota gives you unlimited ways to combine your own designed shelf. It can follow you through your whole life, from the children's room to your first apartment and later family living and the mature living.

Easy to assemble

Shelves, doors and drawers are easily placed on the side. It is easy to supplement with door inserts or drawers afterwards. Or move your parts if you want to change the look.

Design by Rutger Andersson

The well-known and experienced designer and product developer Rutger Andersson is excellent at "less is more". His touch makes any product live up to its full potential. In his portfolio you will find many successful designs. Dakota is just one of them.

Scandinavian design

With timeless Scandinavian design and flexibility in mind, Rutger Andersson has created Dakota. The soft-closing doors and drawers both have beautiful, rounded edges and a gently milling behind the handles. Sides and handles in matte black metal gives the shelves contrast.

Details

The dots instead of handles are nicely shaped into the mdf fronts and create a clean overall look. Solid oak legs in combination with oak veneer tops form an attractive frame that highlights the design of the furniture even more.

Made in Sweden

The technical knowledge and sense of design from Tenzo pursued the development, from idea to production. The creation process of Dot is genuine and precise. Tenzo has high-quality standards and the furniture is always inspected before it is shipped.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Design by: Måns Broman

Måns Broman is a Swedish designer who's creativity has spawned numerous designs and earned him an Elle Design Award. Dot is one of his many creations.

MALIBU
SPRING REBELS
●●●●

MADE IN SWEDEN

MALIBU

MALIBU® - THE ORIGINAL SINCE 1998

The rebel. In the 1950s and '60s many young people broke free from the traditional social norms, wanting to release from their parents' generation. New subcultures emerged, such as rock n' roll and surfing. This furniture range is inspired by the styles and ideas of this era.

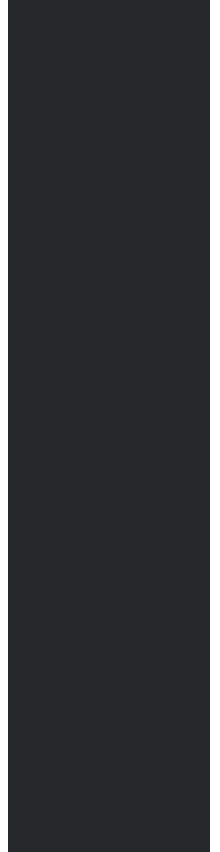

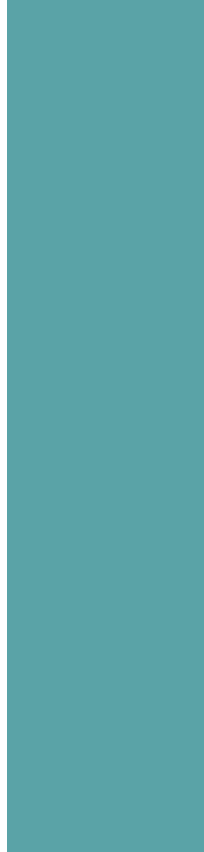

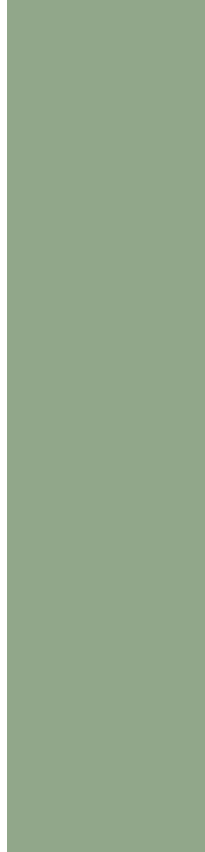

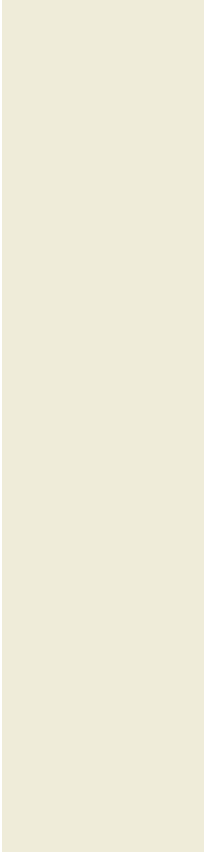

Rutger Andersson has created a colourful retro design, bringing the feeling of that generation back to the presence. The colour collection "Spring rebels" has radiant but yet grounded shades that gives your home a modish retro-touch.

Malibu is young, rebellious and colourful!

Malibu

SPRING REBELS

The Spring Rebels colour collection is a palette inspired by the american west coast, and 1950's diners culture. You get the typical red bar stools, green palms and colourful cars mixed in a vibrant and modern and elegant color scheme. Add the white sand and almost black tarmac for a full Malibu experience!

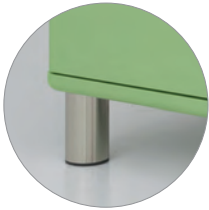

MALIBU

o o o o

The original

The Malibu® collection from Tenzo has been on the market since the late '90s, and is still going strong. It's an original collection that is well-known for its colourful variations and trendy way of resembling retro living.

PARMA

UNICOLOURED AND CONTEMPORARY WITH A TOUCH OF ELEGANCE

Parma is a monochromatic, contemporary collection designed for modern living. This versatile collection offers plenty of storage while adding both elegance and softness to your home. The legs gracefully match the colour of the rest of the furniture, creating a clean and cohesive look that's pleasing to the eye. A seamless, unicoloured finish brings a sense of unity to your home.

The round edges and curved legs give a sense of softness while the doors without handles give you elegant furniture that will easily find its place in all interiors. Olivier Toulouse has designed the original cutout handle on the top plate with usability and simplicity in mind.

PARMA

o o o o

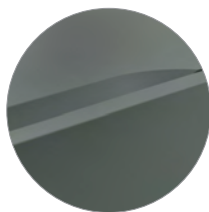

Unicoloured

The legs have the same color as the rest of the furniture, giving your home a cohesive and uniform look.

Rounded edges

The front edges have a rounded shape that corresponds with the round metal legs.

No handles

The doors have no handles disturbing the overall clean look. Instead, you can easily open the door at the top, where you'll find an elegant cutout that also gives the furniture its character.

Design by: Olivier Toulouse

Design says something about who you are. That's why Olivier Toulouse is inspired by people. By watching humans, new designs emerge.

PATCH

SIMPLICITY & ELEGANCE

The product may look simple at first glance, but the closer you look, you'll see that behind both design and production lie hours of work. Each base is made in solid oak which allows the legs to have its characteristic form, a detail that expresses northern design and harmony.

All doors and drawers are equipped with a push-to-open feature. The clean lines appear clearly when no handles are needed. The appearance of Patch is a delight to the eye; especially for those who appreciate symmetry. Yet the symmetry is something out of the ordinary - the legs are made with a graphic twist that highlights the unique cut that is characteristic for Patch.

PATCH

o o o o

It's in the details

The legs of Patch are something out of the ordinary. They are made of solid oak and have a unique cut that is a characterizing design detail. Every line and chamfer is thought through and truly makes Patch a work of art.

Design by: Thomas Eklundh

Thomas Eklundh finds inspiration for a new design in almost everything, but mainly in film, art, and literature. With the ambition to make the everyday a little more exciting, he places great emphasis on both ideas and handcrafted details.

Push to open

The doors and drawers are equipped with push openers. No handles needed, just give the door a gentle push to open it.

Added value

On all Patch items, it is possible to choose a top in oak instead of white lacquer. That makes the oak from the leg recur in the top plate.

This way the oak creates an artistic frame which adds another highlight and brings sophisticated symmetry to the product.

Details

The U-shaped handle is a fun addition to the otherwise simple design. It is the element with a big E and the thing that makes Uno special. The colours are carefully chosen to give a mature but yet colourful appeal.

Made in Sweden

At Tenzo, we design and produce modern, high-quality furniture. Our modern production facility, located in the south of Sweden, allows us to provide furniture collections in a wide range of colours.

French design

The French carry an air of sophistication without looking like they've made the effort to do so. Naturally, this influences the interior design with an exquisite appeal and unconcerned aesthetic. France has a long, genuine history in design and their reputation is widely known and beloved.

Design by: Olivier Toulouse

Design says something about who you are. That's why Olivier Toulouse is inspired by people. By watching humans, new designs emerge.
