

Cord series

Designed by Hertel & Klarhoefer, Germany

Cord is a series of sideboards and high boards, which are made of solid oak that creates a heavy and solid expression, contrasted by the strings of braided paper rope that create an airy, eye-catching front. And the paper-thin braiding is certainly something very special. Danish Cord is developed and produced in the small Danish town of Randers, with local influences reinforcing its origins of good, solid craftsmanship.

Meet the designer

Berlín és sovint una gran font d'inspiració. Ens encanta la ciutat tal com és: una metròpoli creativa i natural. Tot i que moltes idees creatives neixen durant viatges i en altres països on abunden les coses interessants que ens criden l'atenció, també és cert que de vegades les millors idees es presenten en els moments més inesperats! Allò que més ens inspira és la materialitat de les coses. És per això que, ja en una fase molt primerenca del procés, treballem amb materials i prototips de mida real. Al començament d'un projecte, acostumem a tenir una idea conceptual que, tan aviat com podem, mirem de materialitzar en models i prototips físics. Però de vegades els projectes de disseny prenen com a punt de partida una idea tan abstracta que es pot expressar de moltes maneres diferents, depenent de com s'interpreti el material en qüestió.
